Price: £50.00

Date: 2020-11-09 14:05:13

Expiration Date: 0000-00-00 00:00:00

Description

family portraits sittings Our family photo sessions are fun and being taken in your home they are more relaxed. It is important that you think carefully about the clothes that you wear. If for instance you are having pictures taken in front of a white backdrop it is recommended not to wear white. We ask that what you wear makes you comfortable. "Mark came to the house to do a family photo shoot. He was so good with our children and the dog, making the shoot extremely fun for them. Capturing their natural smiles is what meant so much. The end result is great and we have some really lovely photos. Thank you" Once the photo shoot is finished I will make an appointment with you to fit in with your diary schedule. Your photographs will be shown to you on a laptop at your home. On the laptop the images can be blown up to be able to see all the detail. Being on a laptop we can make the pictures come together so you can compare them on the same screen so it makes it easier to choose.
