Description

NON-SLIP WALKWAY PANELS FOR RAILWAYS, MARINAS, BRIDGES & RAMPS GripDeck® anti-slip walkway panels are used extensively across the UK and Europe by the rail industry and local authorities, providing slip-resistant walkway solutions for bridges, marinas, railway lines and access ramps. MADE-TO-ORDER NON-SLIP PANELS Suitable for a wide range of transport, maritime and industrial settings, all GripDeck® panels are made to order*, manufactured from birch throughout plywood, fully encapsulated in epoxy resin and surfaced with a hard-wearing aggregate. They can be used as load bearing decks with joist support or as an overlay to an existing deck. Panels can be fastened to timber, steel or concrete decks and have a life expectancy of more than 20 Years. Panels Want to find out more about our anti-slip outdoor flooring/walkway options? Ready to place an order? Please contact GripDeck® on 01206 242 494 or email us at sales@gripdeck.co.uk. ETHICALLY MADE ANTI-SLIP WALKWAYS We use the finest quality birch plywood in our anti-slip walkways, ensuring a long service life. Additionally, GripDeck® has a comprehensive ethical policy in place to ensure transparency in sourcing our timber products. Our birch plywood is also purchased in line with the requirements of the European Union Timber Regulation (EUTR). GripDeck® Rail Panels are Achilles registered. *Please note: GripDeck® panels are made to your exact specifications. A survey may be required.
