Description

Calming, yet captivating the ‘Reveal’ collection of artworks take classical paintings from the past and gives them new meaning. Designed by Young & Battaglia design studio in collaboration with guest digital artist Kirin Young. The colour scheme of this collection is an urban grey, almost concrete finish, unveiling the classical painting behind. The artwork is mounted in a wooden box frame to complement the piece. These paintings are the perfect winsome addition for a cafe or bar with a modern industrial feel, adding a touch of "Dorian Grey meets Rembrandt".
